

Rt 7, Frederick, Md. 21701

11/28/67

Dear Hal and Steve,

I almost flew to Frisco again this weekend to do a show on KHJ. They couldn't fit it in. We have set a date for 2/3/68. I tell you both in case you can arrange the speeches you want for this period, when I'll be out there. This keeps me from being tied up close to the 15th, in the event the trial goes off then.

For Steve: I have asked Art to get the original of the 5/2/67 tape from you and dub several original copies at 70. The quality, necessarily, is poor. It will sound best on radio and TV is made professionally from the master instead of my trying to dub copies from the good copy Bill made (which I am leaving alone right now, here, for possible immediate use). I expect to send him a tape of an interview with the Castorrs, the second interview (this time I invited LIFE people). That must be kept in confidence except for knowledge that can be gained from it. I encourage you and Maggie to listen to it. He will dub a copy for Jim and I expect one for you out there. I forgot to tell him this is entirely confidential. Please do it so that he doesn't, by mistake, use any of it. I think you will find parts of it fascinating. He will then return my copy and I'll still have one. I have sent Art a few more leads that may or may not relate to what we already knew and a copy of the Dean tape. I told him to get Dean's address from Bill. I may still have it but haven't tried to locate it. He is still trying to master the stuff I left with him.

Hal: I had a phone call from the guy who said he'd pay you \$100.00 for a look at the Gary Underhill stuff you have, intention, publication, which would pay more. He hasn't heard from you. Anything new on B. or M. D. Or the silent John. Again, try and get Turner's Dean notes and send them to Steve for Art or directly to Art Kevin, KHJ, 5515 Melrose Ave., Hollywood. He and several other people there are interested and may be able to help. I'd like to see them, too. Let me nudge you again about the Eason tape.

General: Lil is retyping the fourth from the last chapter of ROSE MORTIM for offset. I'm trying to make a deal for some of the stuff for prior use to get the money with which to publish it, I estimate she has 2/3 of it done. She is alternating between that and indexing O in N.C., about half carded... One of you gave me a Liebelier quote saying that the Commission knew Ferrie was flying all around Texas (by plane!) 11/22/63. I'd very much like to have that tape, or at least that part of it.

Best regards to everyone. By the way, Steve, a man I think may be Burgess has initiated contact with me. I think he approached Maggie a year ago, or a while back. Is there anything I should know?

Sincerely,
